

AquaSmart® Water Filter

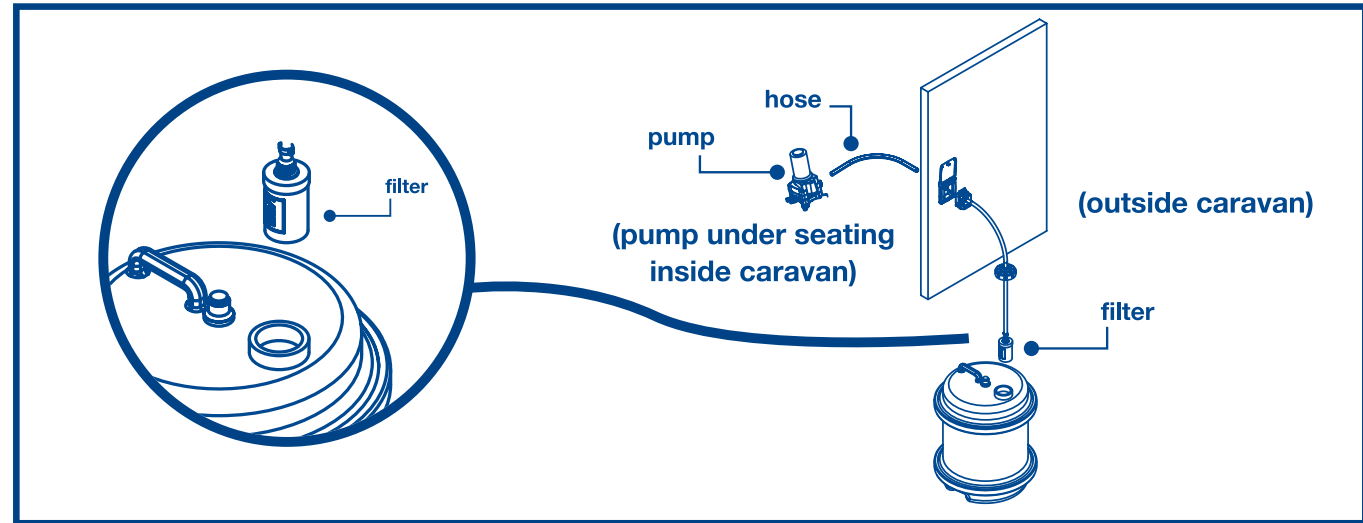

WF3000
AquaSmart® Water Filter
1 Year Warranty

AquaSmart® Water Filter

Removes unpleasant tastes and smells from water

Typical Installation

- Simply lift out of water container and twist off / on to replace
- 3000 litres of filtered water
- Silverized carbon filter
- For details of the complete AquaSmart® System please see page 14

Please Note: This is NOT a bacterial filter

User Tips

- It is recommended that you change your AquaSmart® water filter every 3000 litres or after approx 30 days of use as smells and debris will build up in the filter and effect the pump's performance
- Allow filter to sink to bottom of water container before use
